**YEAR 4**

**PRACTICE TEST**

# INTRODUCTION

Hi,

First of all, thank you for downloading our year 4 practice test. We work hard to create all of our own materials so we appreciate you taking the time to download.

This test contains 25 questions that will test your child on their Year 4 maths and English skills.

If you are considering 11+ preparation for your child, the first step is to make sure their key skills in maths and English (particularly mental maths and vocabulary) are at a good level, as this will give your child a far greater chance of succeeding in the exam, and coping well with the Year 5 preparation in general.

A score of 80% or higher in this test indicates a strong skill level, but make sure you check through the test once completed to see if there are any particularly weak areas. Children need strong all-round academic skills to pass the 11+, so if there is a big imbalance between their maths and English, now is the time for your child to bridge the gap as much as possible. Head to [fraserstevenslearning.com/fsl\\_11\\_online](https://fraserstevenslearning.com/fsl_11_online) to find everything you need for 11+ preparation.

Whether your child is looking to complete the 11+ exam or not, we hope you find these materials useful.

Thanks,

Emma

Kate
